

Exercise 9

Please prepare a written documentation for each task *before* the exercise date. Repeated failure to prepare the worksheet may result in not being admitted to the exam. You may also be asked to present your solution in class.

1. Explain how the number of defects remaining in your software at delivery affects the product support. Draw a chart illustrating the correlation.
2. Give 5 arguments for and against developers testing their own programmes.
3. Create equivalence classes for testing the software from Exercise 6. Generate corresponding test cases. Implement them as unit tests.
4. What is regression testing?
5. Draw an illustration of the term black box testing and white box testing and describe the difference.
