Exercise 10

Please prepare a written documentation for each task *before* the exercise date. Repeated failure to prepare the worksheet may result in not being admitted to the exam. You may also be asked to present your solution in class.

1. Develop a project planning for a *Tetris Gaming App* for AR glasses. Draw a Gantt chart with project activities and dependencies. Plan timings and milestones.

2. Estimate the costs of this project and explain your rationale. For which price would you sell your software for? Explain why.

3. How would you staff the project to achieve the minimal time to market?

4. Which software development process would you use? Explain why.

5. Your project is already over time and over budget. Describe 5 options to finish the project?
